USE OF PROCEEDS FROM LISTING

The Company raised a total net proceeds of about HK\$889,086,000 from the Global Offering in 2004. The following table sets forth a breakdown of the proposed use of proceeds as disclosed in the Prospectus of the Company and the actual use of proceeds as at 30 June 2006:

Proposed Use of Proceeds	Amounts Proposed to be Used <i>HK</i> \$	Actual Amounts Used <i>HK</i> \$
Developing weekend newspapers	Approximately 100 million	not used
Developing a number of topic-focused magazines on personal wealth management, lifestyle and cultural activities	Approximately 80 million	Approximately 8.6 million
Investing in the television industry in Beijing	Approximately 250 million	not used
Acquisition of other media businesses	Approximately 275 million	Approximately 17.5 million
General working capital	Approximately 73 million	not used

As at 30 June 2006, a substantial part of the proceeds of the Company had not been utilized, which was mainly due to the following reasons:

- The preparation period for developing weekend newspapers and topic-focused magazines is longer than expected. In addition, the Company adopts a prudent investment strategy, and will not make hasty investment without the support of sufficient market conditions;
- The PRC government has tightened the limitation on the participation of foreign enterprises in the television broadcasting industry, and our development in such industry has been slower than expected accordingly;
- The Company has spent considerable time on negotiation concerning a number of acquisitions because media industries, particularly newspapers and other media are subject to relatively more restrictions imposed by the relevant government authorities in the PRC.

Nevertheless, during the First Half of 2006, the Company strived to seek opportunities to fulfill the objectives set forth in its Prospectus. The Company believes that the proceeds will be utilized continually for business development in the later half of 2006 and in subsequent years.

Internal Review

The Company made announcements on 3, 12 and 17 October 2005 in respect of the detention of, and allegations of bribery or corruption against, six employees of the Company by the Prosecution Office of the Beijing Dongcheng District and the Second Prosecution Branch Office of the Beijing City, the PRC. An independent financial advisor has been engaged by the Company to conduct an internal investigation on the possible financial impact of this incident on the Company's financial situation. The investigation report of the independent financial advisor was issued on 18 April 2006 and, upon review by the Audit Committee and approval by the Board of the Company, the investigation findings are expected to be announced by the Company shortly. The Company believes that the allegations against the six employees do not have any significant effect on the overall financial situation of the Company.

MANAGEMENT DISCUSSION AND ANALYSIS

Business Review

The Group is principally engaged in three business operations: (1) advertising sales which contribute the largest portion of the Group's turnover; (2) turnover from printing, which includes revenue generated from the printing of publications arranged by Beijing Youth Daily Logistics Co., Ltd. ("BYD Logistics"); and (3) trading of print-related materials, which involves the supply and trading of, among other things, newsprint, ink, lubricants, films, PS boards and rubber sheets to third parties, including commercial printers.

For the First Half of 2006, total turnover of the Group was approximately RMB366,629,000, representing a decline of approximately 6.0% from the corresponding period of 2005. Profit attributable to shareholders was approximately RMB5,662,000, representing an increase of approximately 3,231.0% from the corresponding period of 2005.

The total turnover of the Group for the First Half of 2006 experienced a decline, primarily due to a decrease in advertising revenue, particularly those related to the real estate sector, as a result of the austerity measures and relevant policies and regulations implemented by the PRC government and the new media's diversifying the advertising shares of newspaper and magazine. Profit attributable to shareholders experienced an increase, primarily due to the decrease in the cost of sales and operating expenses, as a result of the Group's active control on the cost, and the increase in bank deposits interest income.

Industry Review

For the First Half of 2006, PRC government imposed further austerity measures on real estate sector. The Regulation of the People's Republic of China on the Administration of Surveying and Mapping Achievements (Revised Draft) (the "Regulations") was approved by the State Council on 17 May 2006 to restructure the housing structure and strengthen the guidance and control in real estate market. According to the 2006's Land Supply Plan newly revealed by the Beijing Municipal Administration of Land, Resources and Real Estate, the residential land supply is expected to decrease by approximately 10% in 2006 from 2005. The promulgation of the Regulations further restricted the project planning and slowed down the launch of new real estate projects. Also, these policies have greatly declined the scale and the frequency of advertising from this sector. At the same time, the automotive manufacturers launched new models frequently in the domestic market and the competition in this sector is increasingly furious. As such, the advertising in automotive sector rallied slightly. However, new media such as outdoor advertising and the internet diversified the advertising shares of newspaper and magazine. According to $1 \, \pi \, R \, \Delta$ $\overline{\pi}$ ("Beijing Hui Cong International Information Co., Ltd.") ("HC"), the overall growth of advertising sales in newspapers and magazines continued to slow down in 2006.

In the second half of 2006, the Group will continue to focus on its core business of providing newspaper advertising services. In addition, the Group will also be committed to multi-media platform operations, which include seeking to engage in the business of topic-focused magazines and the development of outdoor advertising business. Moreover, the Group will continue to take full advantage of its established media connections in Beijing to organize large-scale events such as the China Open.

Advertising Business

For the First Half of 2006, approximately RMB235,072,000, or approximately 64.1%, of the total turnover of the Group was derived from advertising sales, representing a decline of approximately 7.8% from the corresponding period of 2005.

The Group's revenue generated from advertising was mainly attributable to Beijing Youth Daily. For the First Half of 2006, revenue from real estate advertising generated by Beijing Youth Daily decreased by approximately 18.3% from the corresponding period of 2005 to approximately RMB75,997,000 as a result of the austerity measures and relevant policies and regulations implemented by the PRC government and the new media's diversifying the advertising shares of newspaper and magazine.

According to HC, during the First Half of 2006, 414 real estate projects have placed advertisements in Beijing's major newspapers, representing a drop of approximately 5.0% from 436 of the corresponding period of 2005. At the same time, the automotive manufacturers launched new models frequently in the domestic market and the competition in this sector is increasingly furious. As such, the advertising sales in automotive sector rallied slightly. The Company has achieved a positive result in restructuring its advertising portfolio as the advertising from certain weak industries such as leisure and entertainment, watch and optical and finance and insurance sectors recorded growth.

Apart from Beijing Youth Daily, the Group also publishes other newspapers and magazines, including "Beijing Today", "Beijing Children's Weekly", "Middle School Times", "Leisure Trend" direct mail magazine, "39.2 Degree" youth magazine and "Hebei Youth Daily".

Printing Business and Trading of Print-related Materials

The Group engages in the printing business and trading of print-related materials through BYD Logistics. For the First Half of 2006, turnover from the printing business amounted to approximately RMB45,794,000, representing an increase of approximately 8.3% and trading of print-related materials amounted to approximately RMB85,763,000, representing a decline of approximately 7.5% from the corresponding period of 2005.

Organization of Large-scale Events

China Open Promotion Company Limited ("COL"), a jointly controlled joint venture established by the Company, has organized the first and the second China Open tournaments in 2004 and 2005 in Beijing, and will continue to hold the third tournament in September 2006 in Beijing. Leveraging the experience gained from organizing the first and second tournaments, COL expects and believes that the Third China Open tournament will attain a higher degree of success. At present, COL is co-ordinating with the relevant government departments and other co-operative associations for the preparation of the third tournament.

On 18 March 2006, Media Serv Limited ("MSL"), Media Serv Asia Pacific Limited ("MSAP"), Tom Group Limited ("TOM"), the Company and COL entered into a termination deed (the "Termination Deed") to terminate all existing agreements and arrangements relating to the organisation of the China Open. On the same date of the Termination Deed, the Company, COL, TOM, Champion Will International Limited ("Champion"), Swidon Enterprises Limited ("Swidon") and Tennis Tournaments Holdings Limited ("TTHL") entered into an authorization agreement (the "Authorization Agreement") regarding the organization of future China Open events. Under the Authorization Agreement, COL will be entitled to all the commercial rights pertaining to the organisation of the China Open, including the right to receive sponsorships, broadcasting fees, ticket sales and related products sales. In consideration, COL will be responsible for the payment of an aggregate ATP Tour, Inc ("ATP") and WTA Tour, Inc ("WTA") licence fee of US\$1,200,000 per year to Champion and Swidon.

Prospects and Future Plans

The Group came across many challenges arising from newspaper and magazine advertising segments in the First Half of 2006 as the PRC government imposed further austerity measures and issued relevant policies and regulations, and the new media diversified the advertising shares of newspaper and magazine. Looking forward into the second half of 2006, we are of the belief that the PRC advertising industry will maintain a healthy growth. In light of the 2008 Olympic Games in Beijing, we expect that opportunities for the advertising business will arise from the anticipated growing demand for advertising services during the preparation and holding period of the 2008 Olympic Games. Adhering to its objective of developing into a successful cross-media enterprise, the Group will continue to diversify its income stream, such as through expansion into operations of new newspapers, topic-focused magazines, outdoor billboards and large-scale events.

In respect of the development of topic-focused magazines, the Group acquired the operating right of "39.2 Degree", a youth magazine, in January 2006. The Company also plans to continue the research on the launch of other topic-focused magazines with market and profit potential.

As for the newspaper segment, the Company entered into an agreement with 河 北 青 年 報 社 (Hebei Youth Daily Newspaper Agency) on 13 February 2006 in respect of the establishment of 河 北 河 青 傳 媒 有 限 責 任 公 司 (Hebei Heqing Media Corporation Limited ("Heqing Media"), which principally involved in the advertising, printing and distribution business of 河 北 青 年 報 ("Hebei Youth Daily"). The Company will consider to acquire the advertising businesses of "Legal Evening Post" and other publications of Beijing Youth Daily Newspaper Agency ("BYD") at proper time according to its objective and expansion plans.

The Company is seeking to acquire businesses of billboard companies, striving for penetrating into billboard business segment before 2008 Olympic Games, so as to further increase its income stream. The Company is currently considering and preparing for the development of direct-mail advertising business. Backed by its experience in the organization of large-scale events, the Group will also explore the potential of this business segment.

In addition, the Company has been paying close attention to emerging media such as the internet and mobile phones, and is studying the feasibility of fusing the contents and technologies of the traditional and new media, so as to further expand its advertising market.

The Company is seeking to establish a more extensive and diversified media platform by the above development plans. Under the support of the Beijing municipal government, the Group and its staff as a whole will continue their effort to develop and establish more diversified income stream and build up a cross-media platform for the Group, so as to establish the Group as a leading cross-media corporation in the PRC and maximize the return to shareholders.
